

BROOKLYN THANKS EVENING WORLD FOR GAS FIGHT

Boards of Trade and Civic Organizations Join in Celebrating Victory.

DINNER TO MISS LOEB.

Testimonial Given to Writer to Whom Credit for 80-Cent Law Is Given.

By joint resolution of the most prominent civic organizations and boards of trade of Brooklyn The Evening World is publicly thanked for inducing the price of gas in the Third, Sixth and Thirty-first Wards of Brooklyn to 80 cents. The former price was 81, and pending before the Public Service Commission was a proposition to make it 85 cents.

Also a testimonial dinner, at which the most prominent citizens of the borough will be present, is to be given tonight at the Avenue Room Hotel to Miss Irene Loeb, of The Evening World staff, and Herbert Reeves, President of the South Side Board of Trade, in recognition of their work in the gas fight.

Mr. Reeves represented the taxpayers before the Public Service Commission until the matter was taken to the courts and returned to the Public Service Commission.

The Evening World took up the fight when the former Public Service Commission failed to act in behalf of the people, and carried it to the Legislature, where a bill was passed that gave the relief which had been sought for five years.

This is the case, as exposed in The Evening World, that led to the election of the old Public Service Commission and the creation of a new one.

The following is the resolution signed by the representatives of the organization:

Whereas a bill has been passed by the Legislature and signed by both the Mayor and Governor, which reduces the price of gas to eight cents per 100 cubic feet in the Third, Sixth and Thirty-first Wards of Brooklyn; and

Whereas this was brought about largely through the efforts of Miss Irene Loeb, of The Evening World; and

Whereas through these efforts the consumers of gas in the Third, Sixth and Thirty-first Wards have derived a great and lasting benefit; therefore

Be it resolved, that the undersigned, on behalf of their respective organizations, publicly thank Miss Irene Loeb and The Evening World for the great work done in securing the relief so long sought for by the residents of these two wards.

William A. Curran, President Gravesend Board of Trade.

M. C. Schill, President New Direct Improvement Association.

Andrew J. Murphy, President Borough Park Board of Trade.

C. C. Van Valkenburgh, President Marquette Business Men's Association.

Marion H. Stuy, President Both Beach Taxpayers' Association.

Lee H. Hargrave, Secretary South Side Board of Trade.

William H. Darrow, President Borough Park Heights Civic Association.

A. A. Werner, President A. A. Association.

THE EVENING WORLD, THURSDAY, JULY 6, 1916.

THE EVENING WORLD, THURSDAY, JULY 6, 1916.

Warren Association.
James F. Davidson, Secretary
Board of Trade.
Joseph E. Miller, South Side
Board of Trade.
James H. Green, 22-Adam-
Street.
John J. Gordon, South Side
Board of Trade.
Other guests of prominence to be present at the dinner tonight will be Joseph E. Miller, J. P. Mulcahy, Frank J. Davidson, President of the Board of Aldermen, Edward F. O'Leary, Mayor, and James H. Green, ex-Assessment Commissioner of the district, and George J. Thompson, who was Chairman of the Public Service Commission of the Legislature, and returned the case before his committee. Representative James F. Davidson will act as toastmaster.

At the close of the dinner Mrs. Horace Davidson, dramatic soprano, who has just returned from a grand tour of South America and Paris will sing.

JUMPS FOR LIFE WITH HIS CHILD AT BROOKLYN BLAZE

Benjamin Digons Plunges Through Second-Story Window—Police Save Others.

Carrying his four-year-old child in his arms, Benjamin Digons, of the wall of flame which cut off their escape through the second-floor hallway, in recognition of their work in the gas fight.

Mr. Digons represented the taxpayers before the Public Service Commission until the matter was taken to the courts and returned to the Public Service Commission.

The Evening World took up the fight when the former Public Service Commission failed to act in behalf of the people, and carried it to the Legislature, where a bill was passed that gave the relief which had been sought for five years.

This is the case, as exposed in The Evening World, that led to the election of the old Public Service Commission and the creation of a new one.

The following is the resolution signed by the representatives of the organization:

Whereas a bill has been passed by the Legislature and signed by both the Mayor and Governor, which reduces the price of gas to eight cents per 100 cubic feet in the Third, Sixth and Thirty-first Wards of Brooklyn; and

How Simple Pursuits Can Be Made Into Exercises.

GATHERING FLOWERS FOR EXERCISE

PICKING WILD FLOWERS—If a person looks for almost anything in this world they are sure to find it, or a good substitute, sooner or later. For instance, one may pick up a pin or anything else from the floor without bending the knees. This can be made a habit and every time you stoop in this manner you have benefited by it, even if ever so little.

While walking with friends in the country recently, as shown in today's picture, we discovered some lovely wild flowers and stooped to pick them. This was my signal for a physical culture lecture to them on how much good this simple pastime would do them if they but made a little work from it. You will notice that the knees are rigid, which stretches the ligaments in the legs and causes exercise and play at the same time.

This is only an example, and there are others too numerous to mention and too lengthy to find space to write about, and I have only referred to them to prove to my readers that "where there's a will there's a way." The same thing may be said of deep and regular breathing, and those who complain to me of the great monotony of them should make them a daily habit while walking, and not practice them as a regular exercise if they do not really enjoy taking them. Personally I do not think anything beneficial, whether it be exercise or food, if we find it monotonous and distasteful.

Thin readers and stout ones alike should remember that it is of the greatest importance to health and long life to possess large, well rounded muscles, into which the blood may be drained at times to relieve the blood pressure from the brain and other parts of the body. The only way to obtain this large muscle area is by practicing daily exercises, which require perseverance and continuity of easy labor, rather than a great drain on the nervous system and brain, such as one naturally forces in competitive games. Personally I do not advocate games of any kind as exercise only for the sake of recreation and pleasure, for the moment you try to excel and outstep your opponent you are using your brain too much and spoiling all of the otherwise good effects which you might have derived from the physical activity alone.

To-day's menu: Two glasses of water before breakfast. Breakfast—Banana and cream, codfish cake with poached eggs, glass milk. Luncheon—Graham bread, lettuce and mayonnaise sandwich, baked apple. Dinner—Vegetable soup, new potatoes with butter, green peas, Waldorf salad (apples, celery and nuts).

Letters From Readers.
FRECKLES—GRACE M. writes: "Please give a formula to remove freckles."

The following mixture will fade and lighten the freckles temporarily: Lactic acid, one-half ounce; glycerine, one-half ounce; rose water, one-half ounce. Mix well and apply to the face with a puff of cotton every day.

HOT BATHS—MRS. D. F. G. writes: "What should be the temperature of the hot baths for reducing superfluous fat?"

One hundred and five degrees for the robust and strong.

WALNUT STAIN—MRS. FRANK G. writes: "Have made and tried the walnut stain for darkening gray hair."

SAYS FAT FOLKS
NEED MORE FRESH AIR

Advices Moderate Diet and Deep Breathing To Reduce Weight. Take Oil of Korein.

Lack of fresh air, it is said, weakens the oxygen-carrying power of the blood, the liver becomes sluggish, fat accumulates and the action of many of the vital organs is hindered thereby. The heart action becomes weak, work is an effort, and the beauty of the figure is destroyed. Fat put on by indoor life is unhealthy, and if nature is not assisted in throwing it off a serious case of obesity may result. When you feel that you are getting too stout, take the matter in hand at once. Don't wait until your figure has become a joke and your health ruined through carrying around a burden of unwholesome fat.

Spending much time as you possibly can in the open air; breathe deeply, and get from any draught a box of oil of korein capsules, take one after each meal and one before retiring at night.

Weight yourself every few days and keep up the treatment until you are down to normal. Oil of korein is absolutely harmless, is pleasant to take, helps the digestion, and even a few days' treatment has been reported to show a noticeable reduction in weight.—Adv.

LAWYER WHO FLED GRAND JURY INQUIRY ARRESTED IN WEST

Maidment Is Charged With Embezzlement of \$50,000 From Woman Client.

HACKENSACK, N. J., July 6.—Word has been received here of the arrest yesterday in Hackensack, N. J., of Alexander H. G. Maidment, a well-known lawyer of Hackensack, on a charge of embezzlement. He is wanted by the Bergen County authorities on a charge of obtaining \$50,000 from Mrs. Tamm of New York, who owns much property in Englewood.

Maidment disappeared about two months ago when it was said the Bergen County Grand Jury was investigating charges made by Mrs. Tamm. It was alleged she had borrowed \$50,000 for her property and turned it over for business purposes to Maidment, giving him power of attorney. When she could not recover the \$50,000, it is said, she complained to the county authorities.

Maidment was a candidate for county prosecutor four years ago, but he was not elected, being beaten during the candidacy by family difficulties. His wife sued him for divorce, naming Miss Peterson, his stenographer, as co-defendant. The divorce and Maidment married Miss Peterson, who moved to an apartment in Riverside Drive, Manhattan.

Soon after Maidment disappeared Mrs. Tamm went to the Bergen County authorities and said she had not been able to hear from him. She said that he left her without funds and has since reported that she was forced to give up her apartment and seek work in order to support herself.

8 TRAPPED UNDER AUTO SAVED BY TAIL LIGHTS

Red Signals a Beacon to Engineer of Train, Rushing on Wrecked Machine.

PHILADELPHIA, Pa., July 6.—Trapped under an automobile in which they had plunged over a twenty-five foot embankment to the Reading Railroad tracks, John Wastock, a Girardville hotel man, and seven guests prayed and shouted in fear as they heard a freight train come rumbling along late last night near Mahanoy Pines.

The red tail lights of the auto had survived the crash and the engineer of the train caught their glow and stopped the train within a few feet of the automobile. The crew lifted the car from the track and released the trapped party. All were badly injured.

Calcium's Value in Tuberculosis

As a tonic and remedial agent in the treatment of tuberculosis, this element is being studied by scientists and physicians everywhere.

For more than two decades scores of scientists have been testing the effect of calcium in various forms on the human body. The results have been most encouraging, and it is now being used in the treatment of tuberculosis.

It is safe to take, because it contains no poisonous or habit-forming drugs of any sort. For sale by A. L. Liggett's, Philadelphia, Pa. and other drug stores.
